I invite you to learn tools in a way that will take you beyond what the body understands. This class gives you tools to help you live grounded in the present moment, honouring your emotions, while accessing energy and increasing your love for yourself.

You will learn ways to maintain a consistent sense of self and have clear emotional boundaries in your relationships.

Yes, you will learn about the charkras, emotions, grounding, centering and so much more. You receive 24 different spiritual tools, and upon completion, you will be able to give yourself a spiritual healing.

Also, if you have had Reiki, Therapeutic Touch or hands-on healing training, you will find these tools to be complementary and effective in your overall healing practice. However, previous healing experience is not necessary - all are welcome. These tools can change how anyone lives their life.

The tools you will learn range from centering and grounding to making it safe for yourself to be aware of different energies. You will learn how to integrate spiritual awareness into your daily life.

You are invited to design your own class 1 calendar. We need approximately 4 people and 16 hours of class time and we meet at least once a week.

Spiritual Healing, Class 2 During the summer Healing Clinics Private Class room time will be before the clinic.

FEE: \$250

This class is a meditative and experiential workshop. You will learn to safely give another a spiritual healing, as seen in our Healing Clinics. You use the tools taught in class 1 to heal patterns that might cause to lose your sense of self in relationship to those around you. This includes working with such issues as, empathy, clear separation and respect for space. We will also heal an intimate relationship. As all healing is self-healing, you create more room to heal yourself, body and spirit. For more information please see our website or ask for a class 2 flier. People often participate for energy re-newel and to let go of stress
